This listing of the claims will replace all prior versions and listings of claims in the application:

Listing of the claims:

Claim 1 (currently amended): A patch preparation comprising a support and an adhesive base, the adhesive base containing 8 to 50 mass % relative to total amount of the adhesive base of a rubber-system macromolecule having a double bond at least in a principal chain thereof and 0.1 to 10 mass % relative to entire amount of the preparation of a nonsteroidal anti-inflammatory analgesic drug, and the adhesive base further containing 0.5 to 20 mass % relative to entire amount of the preparation of a UVA blocker and/or a UVB blocker as a stabilizer for the rubber-system macromolecule.

Claim 2 (currently amended): The patch preparation according to claim 1, wherein the rubber-system macromolecule having a double bond at least in a principal chain thereof is selected from the group consisting of a styrene-isoprene-styrene block copolymer, a styrene-butadiene-styrene block copolymer, a styrene-butadiene copolymer, polyisoprene, and polybutadiene.

Claim 3 (currently amended): The patch preparation according to claim 1, wherein the nonsteroidal anti-inflammatory analgesic drug is selected from the group consisting of ketoprofen, tiaprofenic acid, suprofen, tolmetin, carprofen, benoxaprofen, piroxicam, meloxicam, benzydamine, naproxen, felbinac, diclofenac, ibuprofen,

diflunisal, azapropazone, etodolac, valdecoxib, celecoxib, rofecoxib, and pharmaceutically acceptable salts thereof.

Claim 4 (currently amended): The patch preparation according to claim 1, wherein the UVA blocker is selected from the group consisting of a dibenzoylmethane derivative and a benzotriazole derivative.

Claim 5 (currently amended): The patch preparation according to claim 4, wherein the UVA blocker is selected from the group consisting of 4-*tert*-butyl-4'-methoxydibenzoylmethane, 2-(2H-benzotriazol-2-yl)-4-methyl-6-[2-methyl-3-[1,3,3,3-tetramethyl-1-(trimethylsilyl)oxy]disiloxanyl]propyl]phenol, and 2-(2-hydroxy-5-methoxyphenyl)-benzotriazole.

Claim 6 (currently amended): The patch preparation according to claim 1, wherein the UVB blocker is selected from the group consisting of a benzophenone derivative, a cinnamic acid derivative, a camphor derivative, an amino acid-based compound, and a benzoylpinacolone derivative.

Claim 7 (currently amended): The patch preparation according to claim 1, wherein it contains 2 to 10 mass % relative to entire amount of the preparation of the UVA blocker and/or the UVB blocker in the adhesive base.

Claim 8 (currently amended): The patch preparation according to claim 1, wherein a tackifier added to the adhesive base is one or more types selected from a rosin

ester, a hydrogenated rosin ester, a maleic acid-modified rosin ester, a terpene resin, and a petroleum resin.

Claim 9 (currently amended): The patch preparation according to claim 8, wherein the tackifier added to the adhesive base is a combination of a hydrogenated rosin ester and a terpene resin.

Claim 10 (currently amended): The patch preparation according to ~~claim 1~~ claim 8, wherein the amount of tackifier added is 10 to 20 mass % relative to total amount of adhesive base.

Claim 11 (currently amended): The ~~Patch~~ patch preparation according to claim 1, wherein it contains zinc oxide or titanium dioxide.
